June 2020 - May 2021

ManyTech Solutions, Jhelum, Pakistan

*Junior Web Developer / Front-end developer and Wordpress Designer*

I joined as the third employee of this company, and I was hired as a Junior Front-end developer. The ManyTech Solutions actually was a startup at the time. Initially, we started developing the system by ourselves. And once the system started working, we successfully managed to develop/hired a team of up to 20 members including SEO, Front-end developer, Back-end developer, Content Writer, Designer, Digital marketing experts, and Social media experts. As the team grows, I also achieved my goals by gaining experience and learning new technologies.

The technologies stack use at company:

HTML, CSS, JS, PHP, Wordpress, Windows Server, web servers, Deployments, ReactJS.

March 2019 - April  
2020

Prime International Travels

*Computer Operator / Microsoft office*

I started working here as a computer operator before finishing my graduation studies, so in essence, this was my startup. I make sure the company's computer systems are operating smoothly and securely to maintain productivity and reduce disruptions.
